
LISTE DE PUBLICATIONS

Moncef GAROUANI

01 Mars 2023

Mes publications peuvent être regroupées selon deux grandes catégories :

- Les travaux de mon doctorat à l'ULCO — Laboratoire d'Informatique Signal et Image de la Côte d'Opale en cotutelle avec l'Université Hassan II de Casablanca ont trait à **l'automatisation de la sélection, la paramétrisation et l'explicabilité automatique des algorithmes de l'IA** [1-4 ; 6-11 ; 18]. Pour ces travaux j'ai contribué à la majorité des démarches scientifiques, de la proposition et l'implémentation des approches, à l'analyse, la rédaction, et à la présentation des résultats, sous la supervision de mon directeur de thèse Mourad Bouneffa.
- Les publications [12, 13, 14, 15], publiées avant et en pendant ma thèse, concernent des travaux réalisés au cours de mon stages de recherche M2 (2018) et portent sur le **traitement automatique du langage naturel** (NLP). Ces publications sont basées sur les résultats de collaboration avec le laboratoire LSIA—USMBA. À ceux-là, pour lesquels j'ai été le principal acteur, s'ajoutent des papiers de collaborations ayant tout particulièrement trait à mes thèmes d'intérêts scientifiques [5, 16, 17].
